

Nathan Kuhr

Grand Forks, ND | (614) 580-5358 | natekuhr@gmail.com

EXPERIENCE

Graduate Teaching Assistant, University of Oklahoma School of Meteorology, Norman OK. Jan 2025-Present

- *Instructor of Record* for Introduction to Weather and Climate in late summer session, and taught labs during the spring and fall, facilitating and supplementing student learning.
- Created weekly instructional videos and published reference slides to support student learning and hosted weekly office hours to address questions and provide feedback and support.
- Graded labs, quizzes, and exams timely and accurately, providing actionable feedback to enhance student performance.
- Managed class rosters and communicated promptly and constructively with students.

Graduate Research Assistant, Advanced Radar Research Center, Norman OK. Aug 2022-Jan 2025

- Investigated tradeoffs of various phased array radar (PAR) scanning strategies of detecting dual-polarization precursor signatures of downbursts using a MATLAB-based radar simulator.
- Modified the simulator to incorporate ground clutter, assessing its impacts on the different strategies.
- Analyzed quantitative and qualitative results to identify optimal strategies for PAR operations.
- Modeled a downburst using Cloud Model 1 for use in the radar simulator.
- Wrote a thesis and made multiple presentations on findings, with a manuscript in development.

Webmaster, Ohio University Scalia Lab for Atmospheric Analysis, Athens OH July 2020-July 2022

- Maintained and updated the lab's website and created new informational pages using HTML.
- Made forecasts and wrote detailed discussions at least twice a week for the website and hotline.
- Collaborated with other team members to make relevant and informative social media posts.
- Provided on-site decision support for lightning detection for Ohio University football games.

EDUCATION

University of Oklahoma, Norman OK Expected Date of Graduation: May 2026

M.S., Meteorology GPA: 4.0

- *Master's Thesis*: "Characterization and Detection of Downburst Precursor Signatures in Environments of Ground Clutter using Adaptive Scanning Strategies from All-digital Phased Array Radar (PAR)"

Ohio University, Athens OH Graduation: May 2022

B.A., Geography-Meteorology | Math Minor | GIS Certificate GPA: 4.0

- *Honors Tutorial College (HTC)*
- Bloemer Geography Scholarship (2021-2022), OHIO Premier Scholarship (2018-2022)
- *Treasurer*, Ohio University Chapter of the American Meteorological Society
- Climate and Sustainability Ambassador
- *HTC Thesis*: "Severe Weather Impacts, Climatology, and Distribution of Mesoscale Convective System Structures across the Eastern Contiguous United States"

SKILLS

- Meteorological analysis/forecasting
- Research and data analysis and presentation
- Remote Sensing, especially Radar
- Coding in MATLAB, Python, NCL, and C
- Effective Communication, Writing, and Teaching Skills
- Geography and GIS expertise, including ArcGIS
- Web design and management
- Highly proficient in Microsoft Office
